5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

A Student Council is a group of elected and volunteer students working together with an adult advisor within the framework of a constitution or bylaws to provide a means for student expression and assistance in school affairs and activities, give opportunities for student experience in leadership and encourage student / faculty / community relations. The purpose of the student council is to give students an opportunity to develop leadership by organizing and carrying out school activities and service projects. Institution has an active student council with representation as per the directions of the MUHS and 4 additional members in the forum of 2 fresh undergraduate students 2 post graduate students. Students council's main function is to represent student's problem and suggestions to the institutional authorities in a structural way. It is formed every year in the month of august/sept with Principal as a chairperson 3rd year student as a secretary. Student members are selected as per the directions given by the university. The teaching staff is appointed on a rotation basis. The council meets every month preferably in first week. Agenda is prepared in advance depending on the complaints received from students and other standard items. On the day of first meeting introduction of all

members is done by principal and secretary reads agenda points one by one on which discussion takes place. Remedial measures and other discussion points are noted down by record keepers and minutes are prepared by secretary after confirmation of the same by principal. The task assignment with compliance report is prepared. Which are then circulated among the students and members respectively. It is the duty of secretary to prepare requisite notices regarding matter discussed during council meeting for information to all students. One-month time period is given for the action to be taken on various issues related to students discussed during the meeting and action taken report is prepared. This is discussed during the next meeting along with fresh agenda points. This year 2nd yr students have been assigned the responsibility of jotting down the points discussed in the meetings as it was observed that it is difficult for secretary to display the minutes of previous meetings, compliance discussion and taking down the points of current meeting as well. Few important decisions taken through student's council are: - Organization of extra neuro practical session for final year students. Wall magazine in college and OPD. Student magazine. Arrangement of Rotational postings along with MBBS doctors for PG students. Formation of college website committee and organization of their meeting once in month. News reading. Availability of required books in library for UG and PG students. Conduction of test series for PG students. Review of mentorship program. Availability of precise soft copies of question papers on college app. Organization of educational trip. Tree plantation on student's birthdays.

Till now registered number alumni are 150. Out of these almost 75 of alumni are working in th clinical setup. 5 of alumni are setteled abroad and working and remaining alumni are working in teaching institute.Alumni from Medical,Nursing and Physiotherapy can registered as Member on completion of their course. Every year Alumni meet is conducted in the institute. VIMS Alumni association meetings take place yearly in the month of October or November with new agenda every year. Annual alumni meets are also organized along side with the alumni annual meetings. In the month of Feb 2018 " Pravara Alumni Network" was also formed to bring all alumni students of " Pravara" group of institutes under one banner. Till date 57894 members joined the Pravara Alumni network. Under this banner Mega alumni meets were organized in Ahmednagar, Lonavala, Delhi and Bengaluru. This Network also helps our alumni students in finding the jobs, internship opportunities and online discussion forums. Alumni contribution happens in various non-financial forms such as alumni interaction with students, alumni feedback to institute about new updates and by donating the books to college. Alumni students they contribute in the form of Online Guidance to current students, feedback on updates required at the institute and by donating the books. Many alumni have donated books to Institutional Library. These books are utilized by current students for upgrading the knowledge. Till date 334 books have been donated by our alumni students. Regular online discussion sessions are organized between alumni students and the current students. Alumni help the studuents by guiding them for procedures of applying for higher courses and study abroad. Alumni students also visit campus at regular intervals to guide the existing batch of students in planning and organizing cultural,sports events and conferences. Online as well offline lectures were organized for current students. In these lectures topics such as registration process for various countries such as

USA, Canada and Australia. Also few topics on current evidences used for treatment of various physiotherapy conditions. Alumni Meetings: Alumni meetings are held annually.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Record keeping in physiotherapy OPD was decentralized in the form of patients data entry by the respective clinical dept. this each departments was made responsible for keeping the record of daily patients treated by them and also the recovery in those patients. This helped to quantify the amount of work done by each department to understand clearly the problems faced by each department. It made the resolution of issues easier and prompt. The centralization is also done in the working of student council in which each member of the committee is given a certain task either individually in a group of two or three. Before the centralization maximum responsibility was with the secretary of students council committee. The centralization help in reducing the time taken for each task to get completed. It also helps for students to understand the meaning of responsibility has develop leadership quality among the students. The compliance report of each month for the work done by the students has members of students council has reflected this accordance.

7.1.2 – Environmental Consciousness and Sustainability/Alternate Energy initiatives such as:

Percentage of power requirement of the University met by the renewable energy sources

Percentage of power requirement of the University met by the renewable energy sources ?Energy conservation: ?Use of renewableenergy ?Waterharvesting ?Checkdamconstruction ?EffortsforCarbonneutrality ?Plantation ?Hazardouswaste management ?E-wastemanagement ? Energy conservation : • Class rooms and labs are designed in such a way that natural lighting and ventilation are provided. • Glass windows are provided to allow natural light in the class room whenever required. • Switching off/ unplugging fans, lights, air conditions, computers, printers, and electrical and electrical equipment when not in use. ? Useofrenewableenergy: • Solar water heater is installed in Girls boys hostel for Hot Water. • Solar lamps are installed on the streets inside the campus. ? Waterharvesting:- • There are enough open space and mud paths to harvest the rain waters. • There is enough extent plantation to reduce evaporative loss and

soil erosion. • Storm water gutters of 3250 meters are constructed to drain the rain water into the check dams. • Checkdam construction • There are 4 check dams constructed the campus for water storage seepage. • Efforts for Carbon neutrality

- The college has been nurturing a large number of plants and trees which can absorb carbon dioxide. • Plantation • There are about 6000 trees with wide branches on the campus. Different plants are nurtured with care. • The institute observes world environment day by tree plantation. Hazardous waste management • Segregation of waste into wet, dry, biodegradable, e- waste and hazardous, and color coding of waste is done. Waste water from Labs, OT, Laundry, Hostels and Quarters is recycled using four stage STP unit and 75 of water is reused for landscaping. • Organic waste of the campus (waste food from hostels, mess, staff quarters, hospital and bio waste of trees and plants) is decomposed and converted fertilizers • Parent hospital has a MoU with Bio Clean Systems Private Limited which is an authorized agency by MPCB for collection of biohazardous waste. • In house Incinerator is used for disposal of non-hazardous dry waste • Use of plastics bags are discouraged within the premises of the college. • Crockery and broken glassware of any sort is considered hazardous waste and are disposed appropriately. • E waste management : • Non-working computers spare parts are donated to ITI institute as a study material for the students. • Refilling of cartridge is done outside the campus.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

BEST PRACTICES-1 1. Title of Practice- College App. 2. Goal- The goal of this app is to provide authentic, official common platform for students teaching staff for exchange of information related to academic, cocurricular activities. 3. Context- The course is divided in four undergraduate Year 6 months of Internship two Post graduate year. The teaching staff is common for all. Parents are the major stakeholders in this process of education who needs to be informed on regular basis, so that corrective measures if any are also taken at their end. Hence this app is developed which facilitates exchange of information among students, teachers Parents. The practice- The college app. works by providing log in ids password to each stakeholder. Teachers are instructed to fill in the information related to daily time table, student's attendance, their marks in class tests, Terminal Preliminary examinations, patient statistics, PG Activity schedules, assignment submission. Administrative section fill up the information related to student's fees, electronic attendance, each student needs to relay for leave through this app. which needs prior sanction from year co-ordinator. Students can login through their view the required information under different readings Parents can also login through their ID access the information related to their child from his attendance to performance. Accordingly parent can take corrective action, if desired. Evidence of success- The yearly usage statistics reveals that each year more members of students Parents have been using the App. Parents awareness about their children progress has increased. So there are less number of enquires to year co-ordinators. Time is saved the data for minimum 5 year is stored for future use. Consolidated report can be prepared easily saving time. 4. Problems Encountered Recourses required- Purchasing an App is a costly affair which needs management permission. After 4-5 sounds of discussions

demonstrations over the period of 4-5 months, the App. was installed. Second challenge was to motivate parents, staff students. After regular repeated instructions for more than another 6 months this app was finally installed in 90 of stakeholders more than 70 are using it now. BEST PRACTICE- 2

1. Title of Practice- Feedback Mechanism-
2. Goal- To collect honest transparent feedback from students, teachers, parents, alumni and patients about the experience at institute. To analyse the responses prepare summary areas of improvement.
3. The context- In order to improve quality of education it is necessary that the areas of concern are identified. This can only be done by involving all stakeholders so that each one gives opinion from their own perspective which authorities may also fail to explore at times. Hence yearly feedback is taken from students about institution teachers, from parents, from alumni. Feedback is taken from patients on a regular basis response are analysed every six monthly.
4. The practice- Feedback from proforma is prepared separately for each entity after a thorough discussion. It includes all aspects related to each stakeholder. It is administered at pre-defined schedule such as at the time of orientation programmes for UG PG students, Alumni Meet, Parent teacher Meet, Online Manual method are used interchangeably. However patients feedback is primarily collected manually. After collection of responses, a summary report is prepared discussed in monthly college Council meetings. Areas of concern are discussed and remedial measures are taken needed.
5. Evidence of success- Number of participants is one of the significant evidence of success since the stakeholders believe that their opinion matters corrective action is taken. More number of responses are received each year. Few policy decisions have been taken which has resulted in positive impact.
6. Problems Encountered resource required- Switching from manual to online mode required technical extractive. "Institute has developed its own mechanism for online feedback collection. Giving instructions to stakeholders to receive their responses in given time period is a challenge. Paper pen mechanism for the patient's feedback collection is the best way since many patients are not able to read volunteers needs to help them out

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The institute has performed distinctively well in the area of Student learning and Community service Integration. Being placed in the rural area, institute has the advantages for community services in many aspects such as ease of transport, quicker communication, shorter distances between the target areas and institute, availability of vehicles etc. The integration has been achieved through following measures

1. Outreach activities - Institute has collaboration with local NGOs and industrial set ups where students are deputed in rotation posting for assessing and treating these inmates and employees. Under supervision of a staff, students are taught about different aspects of assessment and treatment with limited resources available at the spot. Students also learn about communication skills as these inmates also needs to be explained about various aspects of physiotherapy, in their local language, in a simple way.
2. Pragati Pustak - It is a project which the institute has launched since 2016. A progress card in the pictorial form and local language is prepared for the village parents giving information about the developmental milestones in a child from 3 months to 24 months. Interns and Post graduate students are posted at the rural health center of nearby villages on the day of immunization. Under supervision of staff, parents of children who come for

immunization on that day are explained about the importance of monitoring the developmental milestones and how to do it with the help of Pragati Pustak (Progress card). 3.NSS activities - Observance of days specified by NSS unit is a regular feature of the institute. Yearly planning is done for the same. Community oriented activities are arranged in which student volunteers in the leading role of organizing and executing the same under the guidance of NSS incharge. Two special camps of minimum 7days each are organized as per the directions form university along with regular camps. Institute receives funds from parent university MUHS for the conduct of these activities. Students gets extra marks for being the NSS volunteer in their final year university examination. 4.Community department has started a novel way of conducting the examination of undergraduate and post graduate students. It is taken in the actual set up of patients' residence or industries or at NGOs. University has not prescribed it but it is the initiative of department which is appreciated by all external examinaers and students also gets a satisfaction of demonstrating what they learnt throughout the year. 5.Following the yearly calendar of independent camps and participation in multidiagnostic camps organized by parent hospital gives students adequate exposure to the variety of clinical material which is much needed for developing psychomotor skills. Students from different years along with interns and post graduate students are posted in these camps and they learn the techniques for assessment and treatment with local resources. Working in a team of other specialists in multidiagnostic camps and with senior and junior students helps to learn the soft skill of team building and group dynamics.
