**MUHS Curriculum Feedback Analysis - Teachers.**  
**Academic Year 2021-22**

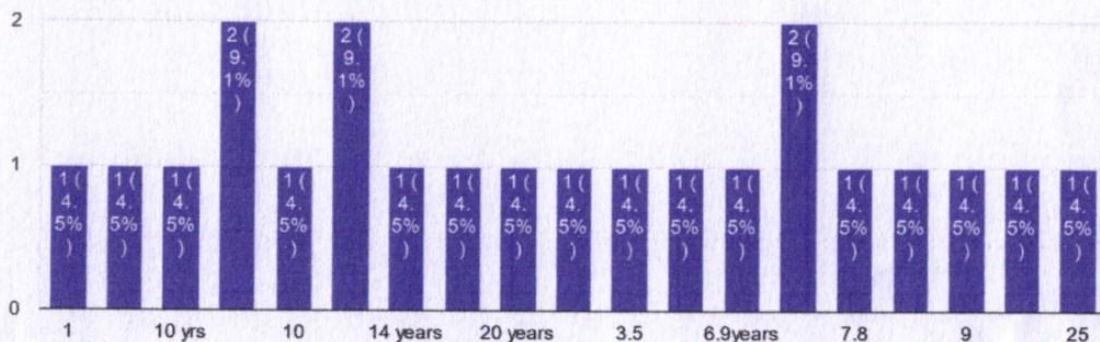

**1. Designation**

22 responses

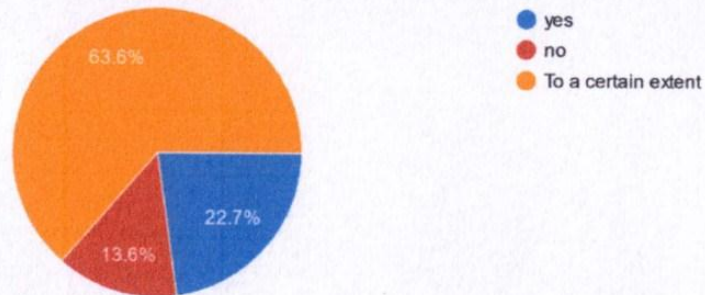

**2. Teaching Experience in years\***

22 responses

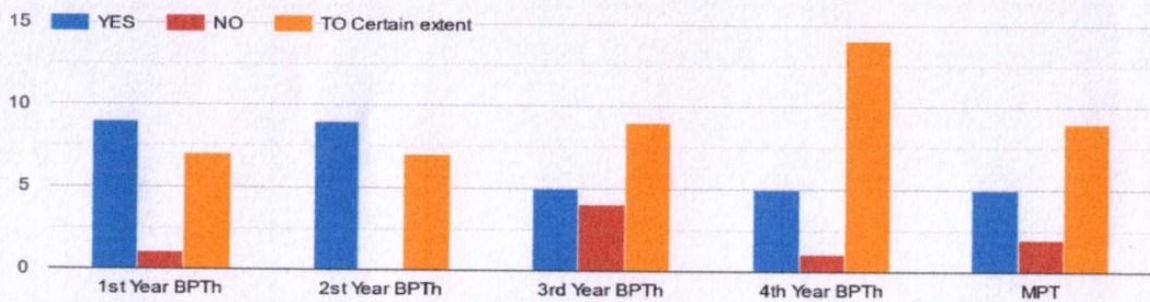

### 3. Are you satisfied with MUHS syllabus for UG & PG course\*

22 responses

### 4. Are the subjects included in each professional year appropriate?\*

### 5. If no, pls give your suggestion\*

18 responses

For UG and Pg - Research subject is must as dissertation is compulsory.

Please include Paediatric and Gynaecology as university subject for third year. Include ethics and biostatistics as university subject for final year. Oncology rehabilitation should be included in detail for final year.

Need to revise the syllabus

Change in Electrotherapy- many new modalities can be added in syllabus, and those not in use can be deleted

Neuroplasticity and motor control concepts should be included right from 3rd bpth, 4th yr neuro syllabus should include more neurodegenerative conditions, concepts related to cognitive behavioral training, pt management of conditions with recent advances and orientation of evidence based practice, also research methodology university exam

I would to suggest revision in terms of adding some topics and modifying few topics

add new topics for electrotherapy for 1st and 2nd year

5.If no, pls give your suggestion\*

18 responses

curriculum can be more interactive based

no suggestions

new electrotherapy modalities, new equipments and their technical details should be included in the syllabus, 4th year syllabus should also include new manual therapy techniques such as dry needling and cupping which are only being introduced in workshops

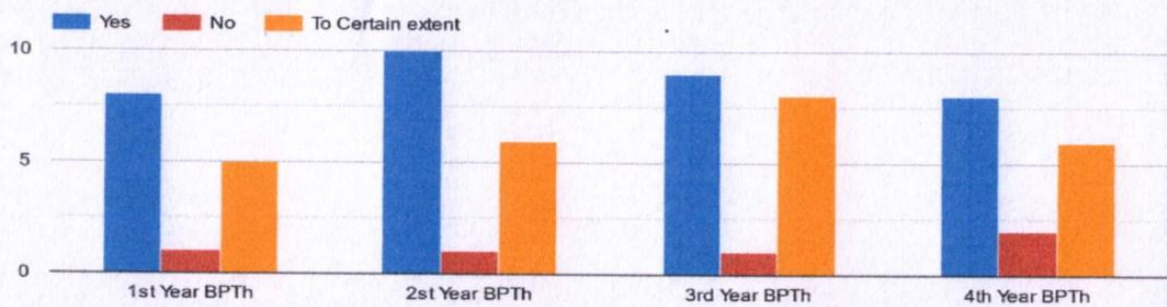

PT in oncology can be added to 4th year syllabus

sports and oncology can be added as an additional subject and evenly distribute MSK PT in accordance with Sports PT

health care professionals and accessibility to health care should be based on credit hours allotted to each student

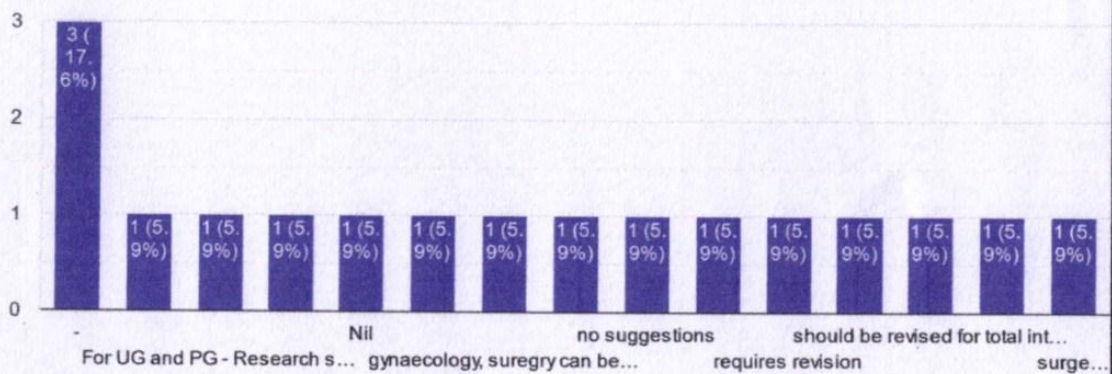

there is overlapping of certain topics of external subjects such as cardiorespiratory medicine and PT cardiorespi in 4th year

6.Is the internal assessment examination scheme of all years appropriate ?\*

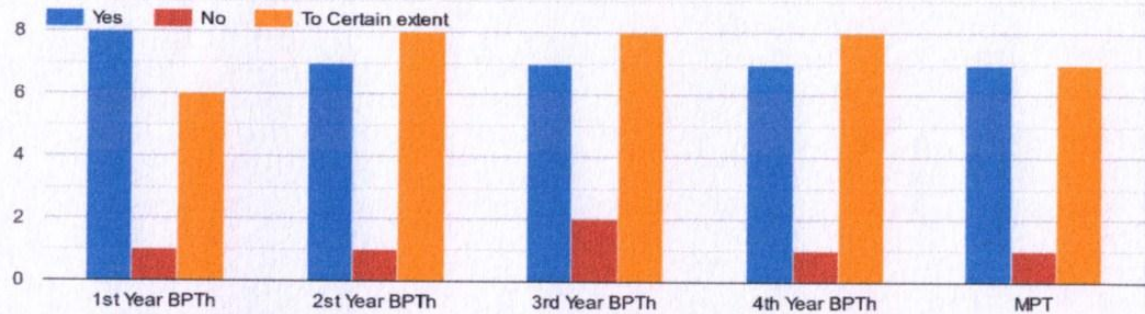

7.If no, pls give your suggestion\*

17 responses

8. Are you satisfied with University examination pattern for each professional year ?\*

9. If no, pls give your suggestion\*

18 responses

MCQ can be Added as because of this they can read the whole chapter.

Include mcq for ug and clinical skill base exam for pgs. for

Nil

NA

I feel practical examination should be given more time

MCQ to be included

more practical evaluations should be added

external subjects should be given equal weightage

no suggestions

9. if no, pls give your suggestion\*

18 responses

OSCE can be introduced for university examination,

two long cases and one short clinical case is very exhaustive for the examiner and the student to deliver instead an internal examination and attendance, seminar and journal evaluations through out the year can be one of the parameters for totalling of marks

some important subjects like surgery and peadiatrics can be a part of university examination

syllabus in 2nd year is vast, and most of the subjects are external which can be minimised

satisfied

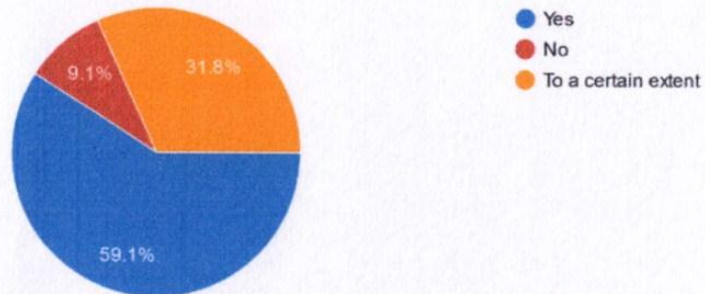

OSCE and OSPE can be added for anatomy and Physiology

-

revison is required

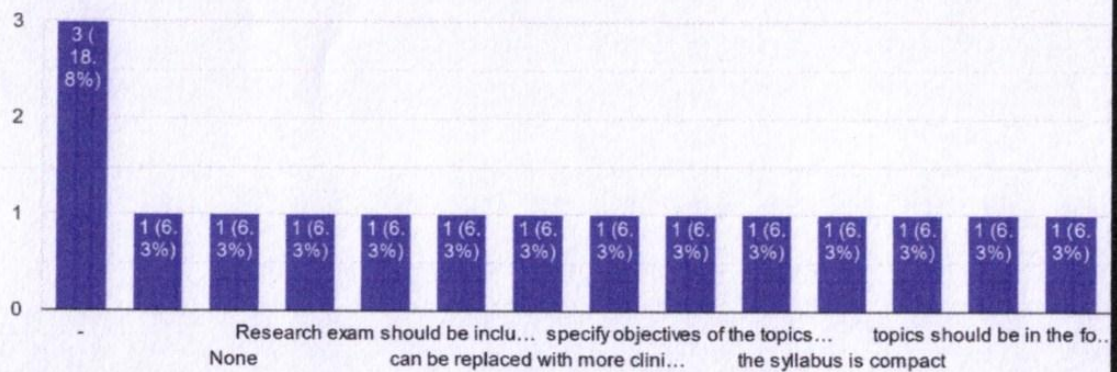

10. Are you satisfied with PG activities prescribed by the university?\*

22 responses

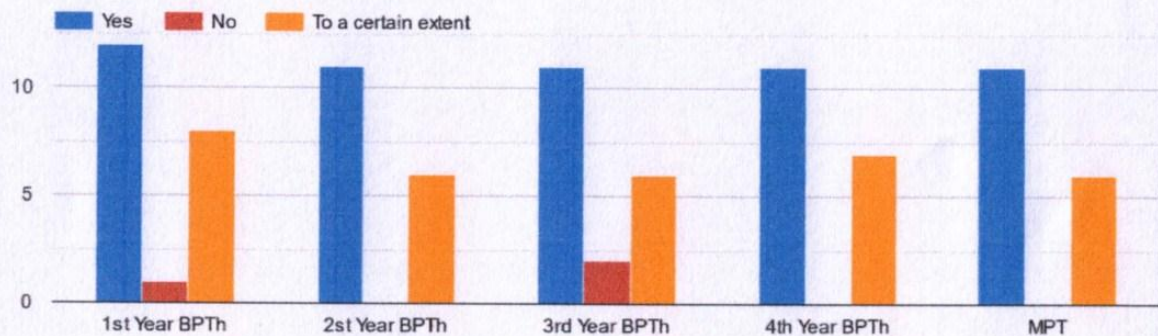

11. If no, pls give your suggestion \*

16 responses

12. Are the books recommended in syllabus for each subject appropriate?\*

13.If no, pls give your suggestion\*

18 responses

The new books with new authors can be Added

Need to add more reference and recommended books

NA

Update the books list for respective subjects add latest books recommendations

Books on standard ICF , research methodology specifically with physiotherapy examples, books with pelvic floor rehabilitation.

More Indian book with easy language to be include.

new books and revised editions should be added

no suggestions

13.If no, pls give your suggestion\*

18 responses

Update the books list for respective subjects add latest books recommendations

Books on standard ICF , research methodology specifically with physiotherapy examples, books with pelvic floor rehabilitation.

More Indian book with easy language to be include.

new books and revised editions should be added

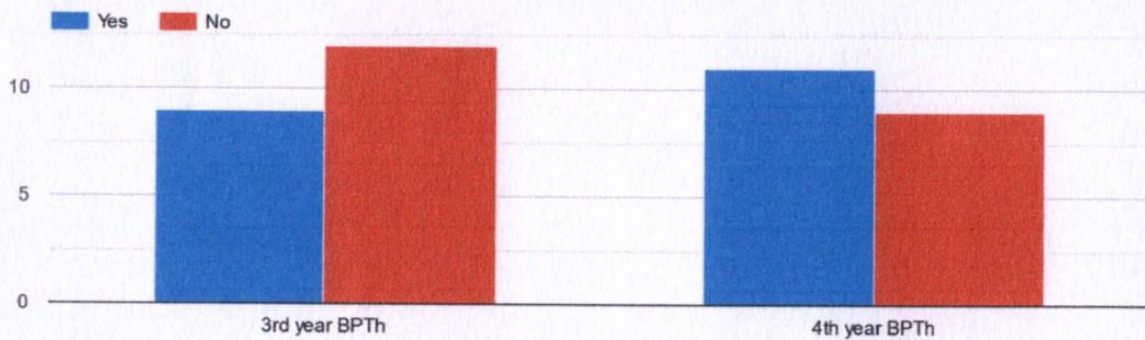

no suggestions

physiology and biochemistry books used by the students are now only confined to PT practice which should be discouraged

vague selection of books for external subjects

there are more concise books being recommended rather complete reading

14. Are you satisfied with college examination for some subject in 3rd year and 4th year ?\*

15. If no, pls give your suggestion\*

18 responses

Same research should be added

Please include Paediatric and Gynaecology as university subjects for third years and ethics administration and research as single university paper for final years.

Nil

NA

For third year - pelvic floor assessment should be added . More hours for clinicals should be added in final year.

University practical exam of medicine and surgery to be started.

more practical based assessments can be added

research and ethics can be external subjects

15. If no, pls give your suggestion\*

18 responses

no suggestions

gynaecology and surgery can be opted as external subjects as most of the syllabus is a part of 4th year PT subjects

paediatric subject can be clubbed with neuro medicine as an external subject as it is required in 4th year neuro

add PT in sports/ onco/ veterinary subjects as extra internal topics for college assessments

nil

nil

research and ethics can be included in final exams

total marks for pediatrics should be increased as the total marks for practical are out of 10 and same for theory also

16. Any other suggestion about the content and delivery of curriculum. (Please be specific)

19 responses

Curriculum needs to be revised as some of the content is outdated.

Need to add necessary subjects to Syllabus as a university examination and revise the syllabus according to the current trends

More Hands on skills on patients is required in fourth year .

NA

As mentioned ug syllabus can empahsize more on research ad statistics subjects ..

The curriculum should be focusing on the quality of teaching and education imparted. Which I feel is being compromised. Even the textbooks should be more evidence based. The weightage of mark distribution should be given according to the importance of the topics eg. Various modalities don't have evidence, still they appear as LAQ's in exam.

16. Any other suggestion about the content and delivery of curriculum. (Please be specific)

19 responses

Curriculum to be regularly updated at least in 3 years.competency based learning also to be initiated like Nursing.

OSCE and OSPE should be added as a part of assessment

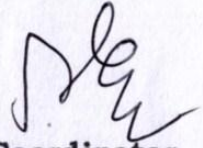

the syllabus is up to date

objectives should be specified for the syllabus, there is a lot of unequal distribution of didactic hours for certain topics for 4th year, community Rehabilitation topics also need refining

syllabus should be objectively specified in the curriculum

now new branches of PT are emerging dealing with mental and psychological aspects of PT as well . they can also be included at MPT level

didactic hours of lectures do not match the actual teaching hours

Academic Year- 2021-22**

**Action Taken Report**

Sr. no	Issue	Resolution	Action taken
1	There is overlapping of some topics in different subjects.	Such topics can be identified and can be the good examples for integrated teaching.	Syllabus revision committee was constituted at college level and integrated teaching modules are being prepared.
2	MCQs should be included in the UG exam.	The suggestion can be sent to university	Letter sent to University recommending MCQs to be included in major subjects.
3	Text books and reference books mentioned in syllabus need to be revised in terms of editions, easy language, utility to our profession.	Scope for adding new books is explored.	Syllabus revision committee was constituted at college level and list of books was revised. It will be sent to university for consideration.
4	Didactic hours mentioned in syllabus do not match with actual hours.	Discrepancy can be utilised by converting it into practical based teaching .	Syllabus revision committee was constituted at college level and discrepancy was identified. It is communicated to university as well as converted into practical based teaching at institute level.
