NAAC Accredited Grade 'A'

## Objectives

**At the end of the Physiotherapy course at our Institute, the learner shall be able to**

- Diagnose & manage common health problems of the individuals & the community and make timely decisions for referral to specialty clinics.
- Plan appropriate rational & different therapeutic modalities & use them effectively.
- Demonstrate skills in participating the national health programmes & orient to provide preventive, curative & rehabilitative services for community based rehabilitation
- Develop consultative role for the health & family welfare services in existing socioeconomic, political & cultural environment as part of CBR organization
- Render therapy to chronically sick & disabled or physically challenged & achieve physical, functional & vocational independence for them.
- Use effectively job modification techniques in work places based on ergonomic principles to achieve better proficiency at work.
- Use early intervention programme for neonates & school children to prevent secondary changes & learning disabilities.
- Use biomechanical & pathophysiological principles to prescribe alteration in common orthotic & prosthetic appliances.
- Develop assessment skills using common standardized instruments to achieve psychological rehabilitation.
- Use functional analysis index & correlate it with disability evaluation to aid in workman's compensation
